

Install Apprenticeship (Level 1 Installer)

Locations: TBD (Madison or Milwaukee)

Posted: *Date*

Automation Arts Culture

At Automation Arts our Core Values are the foundation of our Culture. The core values and culture allow us to be successful and push us to be better as a company and individually. Our employees are our greatest asset, and we believe in Empowering them to make decisions, and training them to be the very best they can be. Personal and career growth is fostered to not only advance individual growth, but to grow the culture, and company. We strive to attract talented individuals who are passionate, professional, and ambitious. Honesty and transparency allow us to be one team, that strive to give our clients the best experience possible. Automation Arts is an Equal Opportunity Employer, and supports all races, and genders.

The Position

Automation Arts has developed an Install Apprenticeship Position to support individuals interested in learning more about the Audio Video (“AV”) Industry and getting some hands-on experience to see what it all about. Through the course of this apprenticeship this individual will spend 4-6 weeks going through a job shadow of all our positions within the company so they have a solid understanding of what each role plays to ensure our success. Once the job shadow portion of the apprenticeship is over, this individual will then spend the majority of their time learning the hands-on skills necessary to be a Level 1 Technician. Working with our Production Home team, the basic skills to be proficient in AV installation will be taught and the ability to perform these tasks on a daily basis will give the experience necessary for these individuals to be successful.

Responsibilities

- Participate in a 4–6-month apprenticeship and being able to show up consistently
- Spend a week in each of the following departments shadowing and learning
 - Sales
 - Engineering
 - Project Management
 - Installation
 - Service
- Hands-On Training
 - Spend 2 weeks learning the basics of being an Installation Technician
 - Job Site Safety
 - Tools

- Installation Basics
- Terminology (Wire, Hardware, Parts, Manufacture parts)
- Assessment Test
- In-Field Experience (Production Home team 2 months)
 - Work day to day with the Production Home Team to put the skills you learned to work and build experience
 - Communicate with the team and learn to manage your day and time effectively

Accountability

Dean of Students/ Production Home Manager

Qualifications

- High School Diploma or equivalent
- Basic knowledge of hand and power tools
- Valid Drivers License

Compensations & Benefits

- Varies based on level of experience
- 9 Paid Holidays
- Laptop or tablet to work in the Online portion of the training
- Continuing education and certification opportunities

This job description does not list all the duties of the job. You may be asked by supervisors or management to perform other instructions and duties. You will be evaluated in part based upon your performance of the tasks listed in this job description.

Management has the right to revise this description at any time. The job description is not a contract for employment, and either you or the employer may terminate employment at any time, for any reason as outlined in the employee manual or other written agreement.
